

et al.

et al.

Metalmobil diventa **Et al.**

Nel 1956, le mani sapienti degli artigiani che intrecciavano il filo in plastica su telai di acciaio creavano una piccola icona delle sedute italiane, la poltroncina 001. Era la nascita di Metalmobil e l'inizio di un percorso felice, guidato da uno sguardo verso il futuro che lentamente, giorno dopo giorno, diventava più chiaro, attraverso una visione sempre più affilata e a fuoco su un obiettivo: il design.

Oggi, quello che un tempo era un obiettivo, è un presupposto: design come principio primo, motore di ogni pensiero e di ogni azione, scelta etica ed estetica, orizzonte di pensiero che ha la sua forza vitale nell'ascolto degli altri.

Per questo, Metalmobil diventa **Et al.**

In letteratura, **Et al.** significa "e altri" (dal latino et alii), in riferimento a tutti i co-autori di un'opera. **Et al.** è un ecosistema aperto, aggregante, che si arricchisce continuamente grazie alla partecipazione di progettisti affermati ed emergenti nello scenario internazionale.

Metalmobil diventa **Et al.** a compimento di un percorso identitario che disegna nuovi paesaggi, dove il punto finale è in realtà una nuova partenza.

Metalmobil diventa **Et al.** e affida a queste quattro lettere il compito di portare nel futuro le radici di un territorio unico al mondo, tra la Romagna e le Marche, dove mare e colline si incontrano, e dove saper fare artigiano e cultura industriale si fondono, per migliorare la qualità della vita delle persone.

Benvenuti in **Et al.**

Metalmobil is now **Et al.**

In 1956, the skilful hands of the craftsmen who wove plastic wire onto steel frames created an iconic little Italian seat, the 001 armchair. This was the birth of Metalmobil and the start of a successful journey, guided with an eye to the future that slowly, day by day, became clearer, and with a vision that became sharper and sharper and focused on one objective: design.

Today, what was once an objective is now a prerequisite: design is our guiding principle, which drives every thought and every action, an ethical and aesthetic choice, the reference point of our thoughts, whose vitality lies in listening to others.

This is why Metalmobil is now **Et al.**

In literature, **Et al.** means "and others" (from the Latin et alii), referring to all the co-authors of a work.

Et al. is an open ecosystem, which brings people together and is continually enriched by the involvement of recognised and emerging designers on the international stage.

Metalmobil is becoming **Et al.** as the fulfilment of a journey to discover its identity creating new landscapes, where the end point is actually a new beginning. Metalmobil is becoming **Et al.** and is entrusting these four letters with the task of carrying into the future the roots of a unique region, between Romagna and Marche, where sea and hills meet and where craftsmanship and industrial culture come together, improving quality of life.

Welcome to **Et al.**

tessuti: note tecniche / fabrics: technical notes

1 Determinati coloranti di vestiti o di accessori (es. jeans denim) possono migrare verso i colori più chiari. Questo fenomeno è incrementato dall'umidità e dalla temperatura ed è irreversibile. Et al. non si assume nessuna responsabilità per il trasferimento di colorante causato da contaminante esterno e per le possibili macchie permanenti causate da questo fenomeno.

2 Sono ammesse leggere variazioni di colore tra differenti lotti di produzione dei tessuti.

3 I colori dei tessuti possono variare rispetto ai riferimenti cromatici forniti nel presente documento a causa delle inevitabili differenze tra i materiali reali e la riproduzione tipografica. Per ulteriori informazioni si prega di contattare l'ufficio commerciale prima dell'ordine.

1 Certain clothing or accessories dyes (such as those used on denim jeans) may migrate to lighter colors. This phenomenon is increased by humidity and temperature and is irreversible. Et al. will not assume responsibility for dye transfer caused by external contaminants and the possible permanent staining caused by this phenomenon.

2 Slight color differences may occur between different production batches.

3 Fabric colors may vary from the color references provided in this document due to the inevitable differences between real materials and typographical reproduction. For more information please contact the sales office.

uso e manutenzione - pulizia / use and maintenance - cleaning

Istruzioni generali per l'utilizzo dei prodotti Et al.

Al fine di garantire la durata nel tempo dei prodotti Et al., consigliamo di verificare periodicamente il corretto serraggio delle viti e di tenerli lontano da fonti di calore.

Le sedute vanno utilizzate con le quattro gambe o la base appoggiata sul pavimento. Evitare di dondolarsi sulle gambe, salirvi in piedi, sedersi sullo schienale, sedersi sui braccioli e utilizzare il prodotto come scaletta. I tavoli vanno utilizzati con le quattro gambe o con la base appoggiata sul pavimento. Evitare di sedersi sui piani o salirvi in piedi. Alla fine del loro utilizzo i prodotti o i loro componenti non vanno dispersi nell'ambiente. Si consiglia di chiamare le aziende preposte allo smaltimento dei rifiuti per il loro trasporto in discarica. Et al. declina ogni responsabilità per danni derivanti da un uso improprio del prodotto.

materiale plastico

PA (Poliammide)

Pulire il prodotto con un panno morbido e umido. Si consiglia l'utilizzo di

detergenti neutri, meglio se diluiti in acqua. Non utilizzare detersivi abrasivi o che contengano, anche in minima quantità, alcool, trielina, ammoniaca e solventi in generale.

PE (Polietilene)

Pulire il prodotto con un panno morbido e umido. Si consiglia l'utilizzo di detergenti neutri, meglio se diluiti in acqua. Non utilizzare detersivi abrasivi o che contengano, anche in minima quantità, alcool, trielina, ammoniaca e solventi in generale. Il prodotto può essere lavato con dispositivi a pressione: tenere la punta del diffusore ad una distanza minima di 60cm dalla superficie del manufatto.

PP (Polipropilene)

Pulire il prodotto con un panno morbido e umido. Si consiglia l'utilizzo di detergenti neutri, meglio se diluiti in acqua. Non utilizzare detersivi abrasivi o che contengano, anche in minima quantità, alcool, trielina, ammoniaca e solventi in generale. Le scocche in PP sono trattate anti-UV. Il trattamento anti-UV è soggetto a un'usura che si accelera in caso di esposizione

continua e prolungata alle intemperie e a forti sbalzi di temperatura. Per mantenere a lungo il prodotto in buone condizioni consigliamo di conservarli durante l'inverno in luoghi chiusi e asciutti e al riparo da forti sbalzi termici.

PP+PET (Polipropilene + Polietilene tereftalato – Tecnopolimero composito multistrato a densità variabile)

Pulire il prodotto con un panno morbido e umido. Si consiglia l'utilizzo di detergenti neutri, meglio se diluiti in acqua. Non utilizzare detersivi abrasivi o che contengano, anche in minima quantità, alcool, trielina, ammoniaca e solventi in generale.

Le scocche in PP+PET sono trattate anti-UV. Il trattamento anti-UV è soggetto a un'usura che si accelera in caso di esposizione continua e prolungata alle intemperie e a forti sbalzi di temperatura. Per mantenere a lungo il prodotto in buone condizioni consigliamo di conservarli durante l'inverno in luoghi chiusi e asciutti e al riparo da forti sbalzi termici.

XLP (Xiloplast)

Lavare il prodotto con acqua e detergente neutro incolore. Sciacquare con acqua a temperatura non superiore ai 30°C. Il prodotto può essere lavato con dispositivi a pressione: tenere la punta del diffusore ad una distanza minima di 60cm dalla superficie del manufatto.

legno

Faggio – Frassino

Pulire il prodotto con un panno morbido e umido. Si consiglia l'utilizzo di detergenti neutri, meglio se diluiti in acqua. In seguito risciacquare con una spugna bagnata e asciugare con un panno asciutto.

Iroko

Trattandosi di materiale naturale, si potrebbero osservare variazioni di colore o anche crepe dovute al grado di umidità e ai bruschi cambiamenti di temperatura. Si consiglia, per conservare il prodotto, di applicare ogni 6 mesi un protettivo a base di olio biologico (es. LAYTECH LAB94149).

rivestimenti

tessuto

Sawana, Citadel, Medley, Go-Couture, Go-Check, Solids & Stripes, Superb Trevira, Rivet, Bubble, Revive 2

Pulire il prodotto con un panno morbido e umido utilizzando detergente neutro.

ecopelle e cuoio

Inca, Crazy, Valencia, Parotega NF, Cuoio

Pulire il prodotto con una spugna inumidita in acqua tiepida e detergente neutro.

lana

Criss Coss, Europost 2, Fame, Main Line Flax, Balta, Remix 2, Steelcut Trio 3

Utilizzare smacchiatori a secco.

metallo

AC VR – AC CR – AC CR S – AC CR X (Acciaio Verniciato – Cromato – Cromato satinato – Cromato brunito – Cromato ottonato)

Pulire il prodotto con un panno morbido e umido utilizzando detergente neutro. In caso i prodotti vengano usati all'esterno è fortemente consigliato il trattamento di zincatura

o di cataforesi. Per mantenere a lungo il prodotto in buone condizioni consigliamo di conservarli durante l'inverno in luoghi chiusi e asciutti in modo da evitare le formazioni di condensa. Prima della stagione invernale e con cadenza trimestrale, se i prodotti sono conservati in prossimità del mare, si raccomanda di pulire le superfici di metallo con un panno morbido utilizzando acqua o detergenti e proteggerle con olio di vaselina.

AX (Acciaio Inox: Satinato – Lucido)

Pulire il prodotto con un panno morbido ed umido utilizzando detergente neutro. Per proteggere il prodotto durante un eventuale stoccaggio si consiglia di stendere un velo di paraffina con l'utilizzo di un panno.

AL COL – AL LUC – AL PSH – AL VR (Alluminio Anodizzato – Anodizzato lucido – Lucidato – Verniciato)

Pulire il prodotto con un panno morbido ed umido utilizzando detergente neutro.

finiture piani tavoli

LAM (Laminato)

La superficie va pulita con regolarità attraverso un panno umido di acqua calda e detergenti delicati; sono ben tollerati quasi tutti i normali prodotti detergenti o disinfettanti domestici purché non siano abrasivi o alcalini.

WRZ (Werzalit)

La superficie va pulita con regolarità attraverso un panno umido di acqua calda e detergenti delicati; sono ben tollerati quasi tutti i normali prodotti detergenti o disinfettanti domestici purché non siano abrasivi o alcalini.

STR (Stratificato HPL: Full Color – Compact)

La superficie va pulita con regolarità attraverso un panno umido di acqua calda e detergenti delicati; sono ben tollerati quasi tutti i normali prodotti detergenti o disinfettanti domestici purché non siano abrasivi o alcalini.

General instructions for the use of Et al. products

To ensure that Et al. products are long-lasting, we advise periodically checking that the screws

are properly tightened and keeping them away from heat sources.

The seats should be used with four legs or the base resting on the floor.

Avoid rocking on the legs, standing on the chair, sitting on the backrest or the arms or using the product as a stepladder. The tables should be used with four legs or the base resting on the floor.

Do not sit or stand on the table top. When no longer required, the products and their components must be disposed of responsibly. We recommend calling a waste disposal company to remove unwanted products and components. Et al. declines any responsibility for damages resulting from improper use of the products..

plastic

PA (Polyamide)

Clean the product with a soft, damp cloth. We recommend using neutral detergents, preferably diluted in water. Do not use abrasive detergents or ones which contain even minimum quantities of alcohol, trichloroethylene, ammonia or solvents, in general.

PE (Polyethylene)

Clean the product with a soft, damp cloth. We recommend using neutral detergents, preferably diluted in water. Do not use abrasive detergents or ones which contain even minimum quantities of alcohol, trichloroethylene, ammonia or solvents, in general. The product can be washed with pressure devices: keep the nozzle at least 60 cm from the product surface.

PP (Polypropylene)

Clean the product with a soft, damp cloth. We recommend using neutral detergents, preferably diluted in water. Do not use abrasive detergents or ones which contain even minimum quantities of alcohol, trichloroethylene, ammonia or solvents, in general. The PP frames are anti-UV treated. The anti-UV treatment is subject to more rapid wear in the event of continual and prolonged exposure to the elements and significant changes in temperature. To maintain the product in good condition for a long time, we recommend storage in closed and dry environments that are sheltered from

significant differences in temperature during the winter.

PP+PET (Polypropylene + Polyethylene terephthalate – multi-layer technopolymer composite with variable density)

Clean the product with a soft, damp cloth. We recommend using neutral detergents, preferably diluted in water. Do not use abrasive detergents or ones which contain even minimum quantities of alcohol, trichloroethylene, ammonia or solvents, in general. The PP+PET frames are anti-UV treated. The anti-UV treatment is subject to more rapid wear in the event of continual and prolonged exposure to the elements and significant changes in temperature. To maintain the product in good condition for a long time, we recommend storage in closed and dry environments that are sheltered from significant differences in temperature during the winter.

XLP (Xiloplast)

Wash the product with water and colourless neutral detergent. Rinse

with warm water that does not exceed 30°C.

The product can be washed with pressure devices: keep the nozzle at least 60 cm from the product surface.

wood

Beech – Ash

Clean the product with a soft, damp cloth. We recommend using neutral detergents, preferably diluted in water. Then, wipe down with a wet sponge and dry with a dry cloth.

Iroko

Since this is a natural material, you may notice colour variations or cracks caused by humidity or sudden changes in temperature. To preserve the product, we recommend applying a protective layer of organic oil every six months (e.g. LAYTECH LAB94149).

covering

fabric

Sawana, Citadel, Medley, Go-Couture, Go-Check, Solids & Stripes, Superb Trevira, Rivet, Bubble, Revive 2
Clean the product with a soft, damp cloth and a mild detergent.

eco-leather or faux leather

Inca, Crazy, Valencia, Parotega NF, Leather
Clean the product with a sponge, warm water and a mild detergent.

wool

Criss Cross, Europost 2, Fame, Main Line Flax, Balta, Remix 2, Steelcut Trio 3
Use a dry stain remover.

metal

AC VR – AC CR – AC CR S – AC CR X (Painted – Chrome-plated – Satin chrome-plated – Burnished chrome – Brass Chrome Steel)

Clean the product with a soft, damp cloth and a neutral detergent. In the event of product use outdoors, we highly recommend zinc-coating or cataphoresis treatments. To maintain the product in good condition for a long time, we recommend storage in closed and dry environments in order to avoid condensation. If the products are used or stored in seaside environments, before the winter season and every three months, we recommend cleaning the metal surfaces, with a

soft cloth using water or detergents, and applying Vaseline oil.

AX

(Stainless Steel: Satin-finish – Polished)

Clean the product with a soft, damp cloth, using a neutral detergent. We recommend using a cloth to apply a thin layer of paraffin to protect the product when stored.

AL COL – AL LUC – AL PSH – AL VR (Anodised – Polished anodised – Polished Painted aluminium)

Clean the product with a soft, damp cloth, using a neutral detergent.

table top finishes

LAM (Laminated)

The surface should be cleaned regularly with a warm, damp cloth and mild detergents; Most standard detergents or household disinfectants can be used provided they are not abrasive or alkaline.

WRZ (Werzalit)

The surface should be cleaned regularly with a warm, damp cloth and mild detergents; Most

standard detergents or household disinfectants can be used provided they are not abrasive or alkaline.

STR (HPL Solid Laminate: Full color – Compact)

The surface should be cleaned regularly with a warm, damp cloth and mild detergents. Most standard detergents or household disinfectants can be used provided they are not abrasive or alkaline.
