

ELEMENTI

**PAOLA
LENTI**

É da un principio elementare, da una sorgente impercettibile ai più che si avvia oggi il percorso creativo di Paola Lenti. Questa scintilla creativa è la spinta vitale capace di infondere negli elementi nuove gradazioni cromatiche e sfumature inedite, di concepire insolite corrispondenze tra materiali tecnologici e sapienti manualità, di creare tessiture che dischiudono nuovi elementi sensoriali.

La costante attività di ricerca di Paola Lenti attraverso le molte espressioni del bello si rivela ancora una volta nell'accurata e coraggiosa scelta dei materiali. Sistemi coordinati, insieme strutturati di segni e forme armoniose convivono in un intenso scambio di esperienze estetiche e tecnologiche, rispettose dell'ambiente e della natura, da sempre aperte alla sorpresa e al fascino dell'inaspettato.

Il risultato concreto di questo lavoro, rivolto alla progettazione di una nuova visione globale dell'ambiente abitativo, è la nascita di un linguaggio condiviso, in cui proprio gli elementi, come il vetro, la pietra, il metallo e il legno, dialogano insieme in un gioco sapiente, sintesi di quella percezione unica dello spazio e del colore da sempre patrimonio di Paola Lenti.

It is from an elementary principle, an imperceptible source to the most that the creative path of Paola Lenti starts. This creative sparkle is the driving force, which is able to enhance the elements with unprecedented colour hues, to conceive unusual relations between high tech materials and artisan mastery, to create weaves that open to a new sensorial universe.

The ongoing research activity of Paola Lenti through the many expressions of beauty is revealed, once again, by the careful and bold choice of materials. Coordinated systems, structured sets of harmonious signs and forms coexist in a vital exchange of aesthetic and technological experiences, which are respectful of the environment and are always open to the astonishment and the fascination of the unexpected. The tangible result of this work, aimed at designing a new global vision of living spaces, is the creation of a common language, in which the elements, such as glass, stone, metal and wood, interact in a wise dialogue, a synthesis of the unique perception of space and colour that has always been Paola Lenti's heritage.
