# DRIVE

DRIVE bench gives the opportunity of quick and easy adjusting to individual needs without compromising on functionality and space. Each work counter has its own individual mechanism which works independently. DRIVE bench can be equipped with fabric panels to divide a work surface for more privacy. Dividing the work surface does not, in any way, reduce the access to the horizontal cable management underneath the work top.

DRIVE is an electric height regulation desks which allows for customized standing and sitting positions and is a great ergonomically solution. The electrical height regulator, located underneath the work surface, simplifies changes in positions depending on one's office needs. Changing position during long working hours increases work effectiveness, productivity and health. To create an intimate climate, DRIVE allows you to add acoustic panels. There are two types of acoustic panels which fit perfectly both horizontally and vertically to the worktop.

YAN\_Z

# YAN\_Z

YAN promotes interaction when employees spend time in teams and allows for privacy when needed. YAN meets office demands by improving performance and customer satisfaction. Thanks to its coherent attributes you can organize your office and reinvent a creative and functional space.

YAN is a simple yet multi-functional system which blends well into an office space arrangement. Its flexibility allows for a quick response to different office work requirements. Sliding desk tops give easy access to cable management. Distinctive panel designs enable to build an office of a particular character.

# YAN\_Z

YAN has been designed to offer the possibility of combining different components into a multi functional office layout. Tambour or sliding door storages, high or desk level can be used as an end element. Different height and functionality pedestals may act as both dividing or finishing section; individual or team storage.
