CONCEPT PRODOTTO

La bottega accoglie ed ispira: la fantasia immediatamente si rianima e un concetto diventa prodotto prima nella mente del cliente poi nei disegni dei nostri progettisti.

Our workshop welcomes and inspires: fantasy is immediately refreshed and ideas take shape in the client's mind first and then in our developers' designs

TAILOR MADE

Concept-disegno tecnico-prototipo-produzione sono gli step del servizio cucito addosso supportato da un lato dalla competenza manifatturiera e dall'esperienza artigianale, dall'altro dalla tecnologia, per offrire prodotti custom che rispecchino alti standard qualitativi.

Concept – technical drawing – prototype – production. These are the steps of our bespoke service, aided on one side by our manufacturing expertise and experience as craftsmen, on the other by the use of technology to offer custom items with high quality standards.
