## Agape proposals

I programmi Agape compongono un grande progetto per rendere più affascinante, originale e funzionale l'ambiente bagno, in sintonia con ogni scenario architettonico, stile di vita, spazio e budget a disposizione.

Non è sempre facile orientarsi fra le esigenze del bagno contemporaneo e le innumerevoli possibilità offerte dalla gamma Agape. Per questo abbiamo creato un catalogo che presenta alcune fra le combinazioni più significative, come spunti da cui partire per creare delle soluzioni ulteriormente personalizzate.

Il catalogo Proposals è suddiviso in due sezioni: una per il programma Evoluzione, pensato per offrire una particolare accessibilità, facilità di progettazione e flessibilità dimensionale, e una per il programma Flat XL, importante ma allo stesso tempo versatile, grazie alla sua modularità.

All'inizio delle due sezioni un indice consente di trovare facilmente l'esempio di soluzione più adatto a ciascuna esigenza specifica: dalla lunghezza del piano, alla tipologia di lavabo.

Ogni proposta è corredata da un'immagine ambientata, che esemplifica un possibile risultato ottenibile con questa soluzione; un prospetto e un'assonometria dei vari elementi; un preventivo di costo e una selezione di possibili abbinamenti con vasche e accessori, sempre della gamma Agape. Una proposta completa, per creare soluzioni ed emozioni ogni volta diverse.

Agape has devised a comprehensive project to enhance the appeal, originality and functions of the bathroom. It can be adapted to suit any architecture, lifestyle, space or budget.

It is not always easy to navigate between the demands of the contemporary bathroom and the countless possibilities offered by the Agape range. To overcome this we have created a catalogue featuring some of the major combinations, which can then be used as inspiration for totally new customized solutions.

The Proposals catalogue is divided into two sections: one for the Evolution programme, designed to be affordable, simple to design and flexible in size, and one for the Flat XL programme, important but versatile at the same time thanks to its modular components.

The index at the beginning of the two sections makes it easy to find the kind of solution you are looking for: from length of surface to type of washbasin.

Each proposal is illustrated in context to give you an idea of the outcome. Also provided is a view of the elevation, an axonometry of the various elements, a cost estimate and a selection of possible combinations with bathtubs and accessories from the Agape range.

A complete proposal that will enable you to create new ideas and emotions each time.
